2. Risk analysis

No major change in the risk analysis of the Authority's operations has occurred since the preparation of its 2018 Annual Report. During the last quarter, the Federal Government adopted amendments to the *Pilotage Act* and the changes are now known. These changes will affect the LPA's financial position since substantial amounts will be transferred to Transport Canada for the execution of its new duties.

Regarding the Authority's operational and personnel activities, they have not significantly changed since the preparation of the LPA's 2019-2023 Corporate Plan. During its last strategic planning in summer 2018, the LPA has carried out a full update of operational and strategic risks, which has been integrated into the 2019-2023 Corporate Plan. An update of this risks analysis will be made within the actual year.
