

INTERIM FINANCIAL STATEMENTS

June 30, 2025

Management Discussion and Analysis

Financial Results

For the year to date ended June 30, 2025, the Laurentian Pilotage Authority ("the Authority") reported total revenues of \$58.1 million, compared with \$54.1 million for the same period in 2024. This variance is primarily attributable to an average 4% increase in pilotage charges, in agreement with industry, as well as the composition of marine traffic during the period.

The total number of assignments increased by 8.5%, from 9,457 to 10,262. Changes in assignment volumes by vessel type compared with the prior year were as follows:

Bulk carriers: +14%

• Tankers: +8%

Containers: –4%

• General cargo: +28%

Roll-on/roll-off (RoRo): no change

• Passenger vessels: -8%

• Other: -3%

Contracted pilot fees totaled \$44.1 million, up 6.1% from \$41.6 million, reflecting the higher number of assignments. Costs related to pilot boat services increased by 10.8%, also in line with the greater volume of activity.

Administrative expenses increased by \$0.5 million (7.7%) compared to the prior year, primarily due to higher Pilotage Act administration fees and increased cost of professional services.

The Authority recorded a net loss of \$0.3 million for the period, compared with a net loss of \$0.6 million for the same period in 2024.

Pilotage Charges

The Authority is mandated to assess and set the pilotage charges payable by its clients. These charges must be fair and reasonable, while enabling the Authority to be financially self-sufficient and to replace its capital assets.

At the end of 2024, the Authority submitted a notice of revision of pilotage charges for 2025, in accordance with its established methodology. A tariff revision schedule has been in place since 2021 to ensure that new rates come into effect at the beginning of each calendar year, thus avoiding revenue recognition discrepancies.

Pilotage Services

Pilotage services for the three compulsory pilotage districts under the jurisdiction of the Authority are provided by contract pilots who are not employees. The Authority negotiates separate service agreements

with the pilot corporations.

The *Pilotage Act* does not permit competition, which significantly influences the negotiation dynamics between the Authority and the pilot corporations, who hold monopolistic positions. In case of dispute during negotiations, the Act provides a dispute resolution mechanism to ensure the business relationship continues without disrupting pilotage services or clients' commercial operations.

Pilotage service contracts generally represent approximately 77% of the Authority's total annual expenditures. The outcome of these contractual negotiations has a significant impact on the Authority's current and future financial position, as well as its ability to comply with the *Pilotage Act*, which requires pilotage charges to be fair and reasonable while ensuring financial self-sufficiency.

Pilotage services also include pilot boarding operations, which are largely subcontracted, except for those performed at the Les Escoumins pilot station. Annually, these pilot boat services represent approximately 11% of the Authority's total expenditures.

Marine Traffic

Marine traffic on the St. Lawrence River and the Saguenay River varies significantly by season. In the first quarter, traffic is generally at its lowest because the St. Lawrence Seaway is closed during the winter months due to ice conditions, meaning that ocean-going vessels can only navigate as far as the Port of Montreal. Ice and severe winter weather may further limit vessel movements.

In the second quarter, marine traffic gradually resumes, reaching its peak in the fourth quarter with the arrival of both domestic and international cruise ships. Just before winter and the seasonal closure of the Seaway, bulk carriers typically depart loaded with grain, legumes, salt, sugar, ore, aluminum, and steel.

Traffic fluctuations are a key consideration in forecasting the Authority's cash flows to meet its financial obligations, along with vessel size and transit times. Despite rigorous analysis and forecasts, the Authority cannot predict or influence traffic volumes. External factors impacting traffic beyond the Authority's control include:

- Provincial, national, North American, and global economic conditions
- Weather conditions
- The value of the Canadian dollar
- Inflation, interest rates, import/export taxes
- Competition from other modes of transportation

Administrative Expenses

Administrative expenses account for approximately 12% of the Authority's total annual expenditures. The largest portion of these costs relates to salaries and employee benefits, amortization, and professional and specialized services.

Summary of Financial Performance

in thousands \$	6 months ended June 30, 2025	6 months ended June 30, 2024	Favorable (unfavorable) Variance	%	Commentary
			Revenues		
Pilotage charges	50 095	46 825	3 270	+7.0%	Increase mainly attributable to the average 4% tariff increase and higher activity levels.
Pilot boat revenue	7 865	7 098	767	+10.8%	Increase primarily due to the higher number of pilot transfers.
Other revenues	158	179	(21)	-11.3%	
Total revenues	58 118	54 102	4 016	+7.4%	
			Operating costs		
Contracted pilot fees	44 132	41 608	(2 524)	-6.1%	The variation is mainly attributable to the increase in the number of contractual pilot assignments, with costs directly tied to activity levels.
Pilot boat service	6 765	6 107	(658)	-10.8%	The variation is mainly attributable to the increase in the number of pilot transfers.
Total operating costs	50 897	47 715	(3 182)	-6.7%	
Administrative costs	7 534	6 996	(538)	-7.7%	Primarily due to higher costs related to the <i>Pilotage</i> Act administration fees and increased professional services costs.
Comprehensive loss	(313)	(609)	296	48.5%	

Risk Management

The Authority believes that risk management is a fundamental component of overall corporate governance. Risks are grouped into six distinct categories: occupational health and safety, environmental, operational, information technology, financial, and reputational. Each risk is assessed based on its likelihood of occurrence and potential impact, and is accompanied by concrete mitigation measures. Senior management reports regularly to the Audit Committee on the monitoring and management of the risks to which the Authority is exposed.

NOTES TO THE INTERIM FINANCIAL STATEMENTS (UNAUDITED)

1. Authority and objectives

The Laurentian Pilotage Authority (the "Authority") was established in 1972 in Canada under the *Pilotage Act*. Its mission is to establish, operate, maintain and administer, for the safety of navigation, an effective pilotage service within certain designated Canadian waters in and around the Province of Québec. In accordance with the Canada Marine Act assented on June 11, 1998, that modified the *Pilotage Act*, the Authority no longer uses parliamentary appropriations.

The Authority is a Crown corporation listed under Part I of Schedule III to the Financial Administration Act. In July 2015, the Authority received a directive (C.P. 2015-1114) pursuant to section 89 of the Financial Administration Act to harmonize its travel, hospitality, conference and event expenditure policies, guidelines and practices with Treasury Board policies, directives and related instruments on travel, hospitality, conference and event expenditures in a manner that is consistent with its legal obligations and to report on the implementation of this directive in its next Corporate plan. The Authority has been complying with the instruction since 2016.

The Authority is not an agent of the Crown and is exempt from income tax.

The *Pilotage Act* regulates the approval process for the establishment and revision of pilotage charges. The Authority may, by resolution, determine the charges applicable for the provision of services involving compulsory pilotage. The Act provides that the pilotage charges must be fair and reasonable and allow the Authority to operate on a self-sustaining financial basis. Thus, the required pilotage charges are intended to create a reasonable financial reserve that allows the Authority to meet its current and future financial requirements related to the provision of compulsory pilotage services, among other things, the renewal of its property and equipment and intangible assets.

Under the *Pilotage Act*, the Authority must pay the Minister of Transport the amount specified by the Minister to cover the costs associated with the administration of the Act, including the development of regulations and the enforcement of the act.

2. Basis of Preparation

The Financial Statements have been prepared in accordance with the International Financial Reporting Standards (IFRS). The current financial statements do not include all of the financial statement disclosures required for annual financial statements and should be read in conjunction with the annual audited financial statements of the Authority for the year ended December 31, 2024.

The Authority's Audit Committee has recommended to the Board of Directors the approval of these interim financial statements for issue on August 27, 2025.

The Authority's cost structure is largely composed of variable costs based on its revenues, which reduces potential unfavorable economic impact in the event of reduced revenues

3. Informations significatives sur les méthodes comptables

The June 30, 2025 interim financial statements of the Laurentian Pilotage Authority have been prepared in accordance with accounting policies outlined in Note 3 of its audited annual financial statements as of December 31, 2024.
